PROGRAMMING SKILLS

- JAVA
- Javascript
- MERN Stack
- C++
- Python

TECHNICAL SKILLS

- Object Oriented Programming
- Database Management (Oracle, MySql, MongoDb)
- Unit testing and API testing
- Knowledge of RESTful web services
- Basic understanding of HTML, PHP, jQuery, Ajax and XML
- Code Management experience (Git Hub)

SOFT SKILLS

- Team work
- Time Management
- Leadership
- Problem solving
- Self given learning

MOHAN WEERASINGHE

SOFTWARE ENGINEERING UG

I'm 4th-year 2nd-semester Software engineering undergraduate student at Sri Lanka Institute of information technology (SLIIT). Who is always excited to learn about new technologies and innovative solutions to them. I'm interested in developing new solutions to make daily life easier for humans using software solutions.

PROJECTS

Hotel Booking System - Web Application
2023

Overview: This MERN Stack hotel booking system lets users search, book, and manage stays, offering secure user authentication and image upload capabilities.
- **Technology :** MongoDB, REACT, Nodejs, JS, TAILWIND, React Query, Cloudinary, Stripe
- **Tools** : Visual Studio Code
- **Github link :** https://github.com/kavindee/MERN-BookingApp.git

Inventory Management System - Windows Application
2023

Overview: This Windows Application, developed using Java and Netbeans, empowers users to effortlessly manage their stock, keeping everything organized and easily accessible on the go.
- **Technology :** JAVA, SQL
- **Tools** : Netbeans, JasperReports, XAMPP
- **Github link :** https://github.com/kavindee/InventorySystem-Windows-Application.git

Ticket Reservation System - Mobile Application
2023

Overview: This project involves building a client-server system with both a web app for back-office work and a mobile app for travelers. I led the development of the mobile app.
- **Technology :** JAVA, Firebase
- **Tools** : Android Studio
- **Link :** https://github.com/EAD-train-reservation/ExpressRails-Mobile.git

WORK EXPERIENCE

Inspired Bussiness Solutions Pvt Ltd   JUL 2023-JAN 2024
Software Engineer Internship
- Developed Websites using MERN Stack, Bootstrap, jQuery, AJAX and java script libraries.
- UI/UX design, understanding the importance of user-centered design principles.
- Developed mobile applications by using Android
- WordPress theme development, broadening my web development skillset.

ACADEMIC QUALIFICATION

B.Sc.(Hons) in Information Technology specialization in Software Engineering   2020-2024
Sri Lanka Institute of Information Technology (SLIIT)

GCE Advanced Level   2017
M.D.H Jayawardana College,Koswatta
Commerce stream
