PROGRAMMING SKILLS

- JAVA
- Javascript
- MERN Stack
- Spring boot
- Python
- C++

TECHNICAL SKILLS

- Object Oriented Programming
- RPA Development (Power Automate, UiPath)
- Web Scraping
- Database Management (Oracle, MySQL, MongoDB)
- Unit testing and API testing
- Knowledge of RESTful web services
- Basic understanding of HTML, PHP, jQuery, Ajax and XML
- Mobile Development(Android, ios)
- Code Management experience (Git Hub)

SOFT SKILLS

- Team work
- Time Management
- Leadership
- Problem solving
- Self given learning

MOHAN WEERASINGHE

SOFTWARE ENGINEERING

I am a recent graduate with a degree in Software Engineering from the Sri Lanka Institute of Information Technology (SLIIT). With a strong passion for emerging technologies and innovative problem-solving, I am committed to developing software solutions that enhance everyday life. My focus is on leveraging cutting-edge technologies to create impactful and user-centric applications.

LATEST PROJECTS

Samdura Company (Malaysia)

Current

Overview: Developed an RPA system to automate vendor management processes, including vendor summary creation, purchase request tracking, deductions, and purchase order generation, streamlining operations and reducing manual workload.

- Merging data from three Excel sheets to create vendor summary files.
- Automating the Purchase Request (PR) process with approval tracking and deduction handling.
- Processing Purchase Orders (PO) to generate invoices and email vendors.
- **Tools :** Cyclone Robotics

Mclarens Project (Bank Reconciliation)

2024

Overview: Built an RPA solution for automated bank reconciliation across 50+ accounts, handling LKR and USD transactions from multiple banks, significantly improving accuracy and efficiency in financial operations.

- Automated LKR and USD account reconciliation for HNB, HSBC, NTB, BOC, and People's Bank.
- Data Comparison: Cross-verify transaction details with internal records.
- Reconciliation: Identify discrepancies and reconcile differences.
- **Tools :** Microsoft Power Automate

Social Fitness Network - Web Application

2024

Overview: This web application is used for Social Fitness Network lets users to interact with users, users can post pictures and videos, workout plan sharing and meal plan sharing.

- **Technology :** MongoDB, REACT, Spring boot, TAILWIND, React Query
- **Tools :** Visual Studio Code
- **Github link :** <https://github.com/kavindee/SocialFitnessNetwork.git>

WORK EXPERIENCE

Claude Shannon Paper to pixels

OCT 2024 - Current

Software Engineer - RPA Developer

- Collaborated with Claude shannon Company to design and deploy RPA solutions for process automation in international and local businesses.
- Developed bots to automate vendor management and bank reconciliation, optimizing operational efficiency.

Inspired Bussiness Solutions Pvt Ltd

JUL 2023-JAN 2024

Software Engineer Internship

- Developed Websites using MERN Stack, Bootstrap, jQuery, AJAX and java script libraries.
- UI/UX design, understanding the importance of user-centered design principles.
- Developed mobile applications by using Android
- WordPress theme development, broadening my web development skillset.

ACADEMIC QUALIFICATION

B.Sc.(Hons) in Information Technology specialization in Software Engineering

2020-2024

Sri Lanka Institute of Information Technology (SLIIT)

GCE Advanced Level

2017

M.D.H Jayawardana College, Koswatta
Commerce stream
